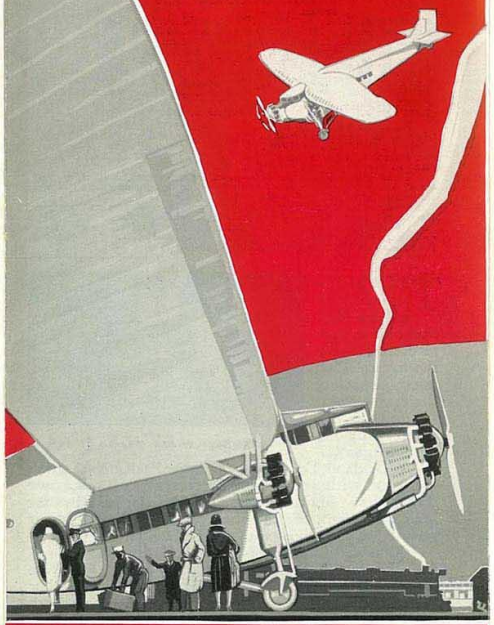
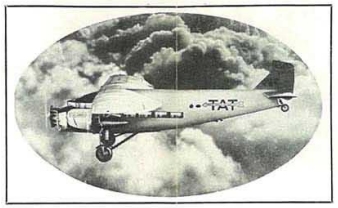
Tickets and more detailed information may also be obtained through ticket offices of the Pennsylvania, Santa Fe, Norfolk and Western; New York, New Haven and Hartford; Southern Pacific and other leading railroads as well as through authorized travel bureaus and agencies. It is advisable to make reservations as far in advance as possible. Tickets must be purchased to assure reservation.

Coast to Coast by PLANE AND TRAIN



TAT
TRANSCONTINENTAL AIR TRANSPORT, INC.
MADDUX AIR-LINES

The Speed of the Plane at the Cost of the Train



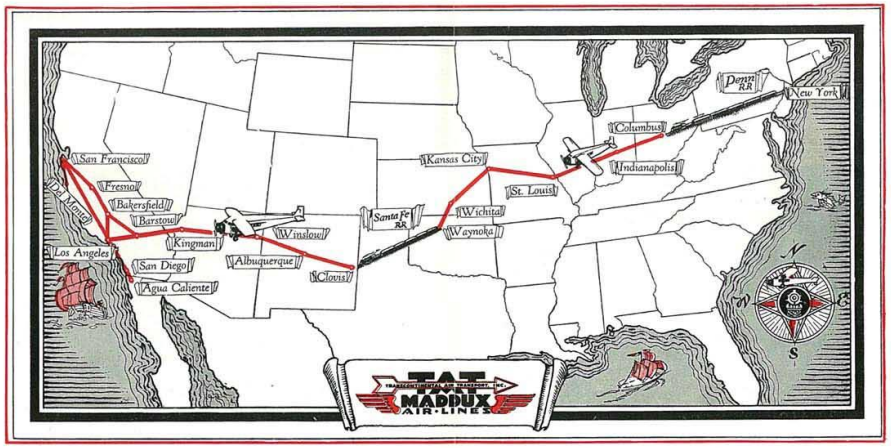
Your travel hours are reduced by half; each hour a thing of scenic beauty; comfort and relaxation are yours, and at the cost of rail and Pullman travel—when you make use of the air-rail service of Transcontinental Air Transport-Maddux Air Lines, operating in conjunction with the Pennsylvania and Santa Fe Railroads.

You may speed across the continent in two days—half the time ordinarily required—enjoying magnificent scenery as you go. You may save irreplaceable hours within intermediate territory, increasing the effectiveness of your business time—adding cities to your itinerary. And your travel costs are not increased.

Transcontinental Air Transport-Maddux Air Lines have placed the speed, safety and comfort of air travel within the means of all. Should you travel for business, for pleasure or from necessity, the air-rail service of the system is at your disposal just as are the services of the vast rail systems—and for the same cost.

For a cross-continent journey the cost is the equivalent of the journey aboard Blue Ribbon trains. Rates between intermediate points are in proportion. Scenic tours to the nation's beauty spots are also available.

AIR TRAVEL IS NOW AT YOUR DISPOSAL



THE GRAND CANYON FROM THE AIR

Passengers wishing to avoid the lay-over at Waynoka on Westbound trip may leave the plane at Wichita and board the Santa Fe train at that point at a slight additional cost. Eastbound transcontinental service from San Francisco is by overnight train to Los Angeles or by TAT-Maddux plane to Los Angeles the previous afternoon.

Transfer between plane and train at Waynoka and Clovis is by aero car at no cost to passengers. Transportation to and from airports at other stations is by cab or bus at passenger's expense.

Luncheons are served aboard planes. Other meals are at the Fred Harvey restaurants or in Pennsylvania Railroad dining cars.

For information concerning additional local schedules between points on Eastern division between Columbus and Waynoka apply to TAT-Maddux representatives or Pennsylvania Railroad ticket agents.

TAT-Maddux planes arrive and depart North at Alameda Airport and South at Grand Central Air Terminal, Glendale. Buses provide transportation at terminals to and from center of city. Bus leaves Palace Hotel, San Francisco, 30 minutes before plane departure; leaves Biltmore Hotel, Los Angeles, 45 minutes before plane departure and Hollywood 45 minutes before plane departure. Daily planes from San Diego connect at Los Angeles for all points North. Southbound planes connect at Los Angeles for San Diego and Agua Caliente.

Schedules are subject to frequent changes and passengers are requested to call nearest ticket office when booking passage.

TAT-Maddux air service at rail and Pullman cost is also rendered between the industrial and resort centers of the Pacific coast. Los Angeles, San Francisco, San Diego, Agua Caliente, Oakland, Del Monte and other Pacific coast cities are almost within commuting distance of each other over the air line. Majestic mountains, deserts, beautiful for their desolation, and the broad Pacific lie below the air traveler on this division of TAT-Maddux.

DINING ROOM IN ALBUQUERQUE STATION

Agua Caliente, ultra-modern pleasure resort in an Old World atmosphere, nestles between mountain ranges just south of the Mexican border—an hour and fifteen minutes from Los Angeles. Just north of the border is San Diego—an hour by air from Los Angeles.

California's beauty lies under the path of the air traveler—the airways lead to California's pleasure and industrial centers.

California from the air is now no more expensive than California from the rails.

LUNCHEON ALOFT

Coast to coast—New York to Los Angeles or San Francisco—and city to city—the service of TAT-Maddux saves the time of the nation's travelers. Columbus is but two hours from Indianapolis—St. Louis and Kansas City are but two hours apart—Wichita is only three hours west of Kansas City, and California is but two days west of New York by TAT-Maddux.

The attractive luncheon prepared by the famous Fred Harvey Company is a delightful feature of the service aloft.

By means of convenient rail connections the air-rail system is extended far from the direct flying route, and many hours of travel time are conserved in journeys to almost any section of the United States.

A beautiful circle tour "over and around America" in sixteen days also is available in connection with the Panama Pacific Steamship Lines.

Air travel no longer is an unattainable luxury—it is an everyday facility—its cost is an unimportant consideration.
