**28 March - 30 October 1988**

## AFTER FIFTY YEARS, WE'RE STILL GETTING BETTER

Our Golden Anniversary sees us still striving to improve standards, frequency and service. We are actively introducing new technology in the air and on the ground.

You only have to compare the De Havilland Rapide, one of our early passenger aircraft with our brand new Boeing 737-300 jets to see how far we've come in those 50 years. The new aircraft mean more space, more comfort, and – with their all weather autoland facility – even better standards of punctuality.

Computerised check-in means greater efficiency, and the ability to get a boarding card and confirmed seat on onwards British Airways flights from Heathrow.

We're now operating no less than sixteen flights between Heathrow and Amsterdam every weekday – more than any other airline – including the first one to arrive and the last one back.

And of course, we're extending and improving our Dia-

mond Service and opening new Diamond Club lounges continuously.

After fifty years, we're still moving forward, improving and enhancing our service to you the traveller.

British Midland. It's the only way to travel.
