THE STORY OF REAL AIRLINES

The first flight of REAL Airlines took place almost fifteen years ago. The plane—a DC-3. The route—Sao Paulo to Rio De Janeiro. The pilot —Linneu Gomes, man with a plan.

Senhor Gomes' plan was to provide unprecedented punctuality, greater passenger comfort, lower tariffs, and greater speed along the 225-mile route of the infant one-plane "airline."

He succeeded so well in his undertaking that the little company was soon able to purchase three more DC-3s and expand into a corporation named REAL S. A. Transportes Aereos. Among REAL Airlines impressive list of innovations was the introduction, in 1946, of stewardess service, then a novelty in Brazil.

As years passed, REAL Airlines under its founder and president, Linneu Gomes, acquired an enormous and varied fleet of specialized aircraft for its constantly multiplying routes. On its intercontinental flights between the U. S. and Brazil today, REAL Airlines provides swift, luxurious, radar-equipped Super-H Constellations for truly superlative air transportation.

The astonishing growth of REAL Airlines is well shown in its statistical records. The most impressive measure of the airline's success is doubtless its record of passenger journeys made each year. In the first year of operation the figure was 47,196; in five years the figure had increased more than tenfold, to 523,337 in 1951; and the million mark was reached in 1954. By 1959, the impressive total was 2,011,290. Today, REAL's fleet of 139 modern aircraft is the seventh largest in the world, and the airline itself is South America's largest.

REAL Airlines accounts for approximately 48% of all the passengers carried by all the Brazilian airlines. The maintenance base at Congonhas Airport, São Paulo, is the most modern and complete in the Southern Hemisphere. As the leader, REAL Airlines is actually a consortium of five major airline companies, and employs close to 10,000 people.

In the summer of 1960, REAL Airlines took a step of far-reaching significance when it inaugurated a new route from South America to Honolulu and Tokyo via Los Angeles. This is a milestone in modern aviation, for REAL Airlines now provides the only direct service from South America to the Far East. From leadership in the Western Hemisphere, REAL Airlines is progressing rapidly to leadership around the world, now serving more than 170 cities over routes totalling 124,000 miles.

b—Class "B" equipment (DC-3, Convair 340/440, C-46, aircraft). d—Domestic route within Brazil.

GENERAL INFORMATION

EQUIPMENT: All REAL Airlines flights serving the U.S. are aboard radar-equipped Douglas DC-6B and Super-H Constellations, piloted by FAA-licensed crews. Other REAL Airlines flights feature Super Convairs, DC-3s and C-46s.

BAGGAGE: Free baggage allowance is 66 lbs. (30 kls.) for First Class, and 44 lbs. (20 kls.) for Tourist passengers. This applies to children paying half-fare as well as to adults. Excess weight over free allowance is charged for at the rate of 1% of the One-Way First Class fare per kilo (2.2 lbs.).

CARRY-ON BAGGAGE: Since checked baggage will not be available during flight, it is suggested that on overnight travel you carry a small bag for toilet articles, etc., which you may bring into the cabin.

CHILDREN: Children over 2 but under 12 years of age are carried at 50% of the published adult fare. Infants under 2 years of age, accompanied by an adult and not occupying a separate seat, are carried at 10% of the normal adult fare.

MEALS: All meals in flight are served complimentary, on both First Class and Tourist fares. Besides meals, snacks and beverages are served throughout the flight. REAL Airlines passengers enjoy the most superb cuisine—gourmet food flawlessly prepared, and a truly continental selection of fine vintage wines and champagne.

STOPOVER PRIVILEGES: Within the time limit of the ticket, stopovers will be permitted at any scheduled stop on the REAL Airlines route, provided reservations are made prior to departure and the passenger has a valid visa.

TRANSFER: Taxicab or limousine service is available between airports and certain pick-up and delivery points in cities on the REAL Airlines route. This is not included in the passenger's air fare.

TAXES: Transportation taxes imposed by some governments are not included in the fares quoted and will be collected where applicable.

SCHEDULES: Weather and other factors sometimes affect operating conditions; therefore, we reserve the right to cancel or change flight schedules without notice.

DEPARTURES: To facilitate on-time departures, all passengers must be at the airport ticket office at least 45 minutes before scheduled flight time.

RESERVATION CONFIRMATION: All reservations must be reconfirmed at least 48 hours prior to departure. Failure to receive confirmation prior to the appropriate time limit indicated will necessitate cancellation of your reservation when space is needed.

How to reconfirm: Simply inform REAL Airlines in your stopover city that you have arrived and intend to use your reservation. Do this at your earliest convenience, making sure you reconfirm at least 48 hours before scheduled flight departure time.

TRAVEL DOCUMENTS: Our agents gladly furnish information concerning passports and visas. However, passengers are responsible for the validity of all documents. While we normally have available all the latest information, we are not responsible for its accuracy and urge you to consult the nearest consulate of the country you propose to visit in order to obtain official advice.

U.S. Citizens who intend to remain in Brazil less than 30 days need only a valid passport, smallpox vaccination certificate and a tourist card, which will be issued by any of our offices, free of charge, upon presentation of two passport-size photographs.

TRAVEL FUNDS: You are urged to carry the major portion of your funds in the form of Travelers' Cheques, Money Orders, Letters of Credit, etc. However, cash—preferably U.S. Dollars—in small denominations should also be available.
