## GENERAL INFORMATION PASSENGERS AND LUGGAGE.

### Fares.

No rebates or concessions are allowed on passenger fares. Return fare is double the single fare.

### Children.

- (i) A child over 12 years of age is charged full fare: over 2 but under 12 is charged 50% of full fare: under 2, not occupying a separate seat, is charged 10% of full fare.
- (ii) A second child under 2 years occupying a separate seat is charged 50 per cent full fare.
- (iii) The age of the child is taken as on the day on which the journey starts. A child under two means a child that has not yet reached its second birthday: "Over two but under twelve" means one that has passed its second birthday but not yet reached its twelfth.

### Luggage Allowance.

- (i) On regular services, passengers are entitled to the following allowances of registered luggage, free of charge:—
  - (a) On all routes, except to and from Asmara.

Full Fare passenger ...	20 Kilos (44 Lbs)
A Child at 50% fare	20 Kilos (44 Lbs)
A Child at 10% fare Nil.	
  - (b) On route 2B, from Asmara to Kassala or Khartoum or vice versa:

Full Fare passenger ...	25 Kilos (55 Lbs)
A Child at 50% fare	25 Kilos (55 Lbs)
A Child at 10% fare Nil.	
  - (ii) A child for whom 10 per cent fare is paid, who is not entitled to any free allowance, may be weighed in the crib or carry-cot in which it will travel, and this will be included as part of the child's personal weight.
  - (iii) Reasonable amounts of luggage in excess of the above allowances may be carried, but will be charged for at the excess luggage rates quoted on page 7. Carriage of excess luggage is subject to space being available on the aircraft. No guarantee is given that it will travel on the same aircraft as the passenger. This condition applies equally to excess luggage of officials of the Sudan Government, although the charges thereon may be covered by Government warrant.
  - (iv) Two or more passengers who declare that they are travelling as a party on the same service between the same two stations may have their luggage bulked together. All the luggage will then be registered in the name of one member of the party.
  - (v) Personal articles, such as lady's handbags, overcoats, books, walking sticks etc., which will be required to while away the time in flight or to be available before disembarking at aerodromes en route are carried as unregistered luggage free of charge and are included in the personal weight of the passenger. Passengers are asked to take special care of such items. They are easily mislaid. Sudan Airways cannot be responsible for their safe custody or for searching for them if lost.

### Labels.

Sudan Airways provide official labels for each piece of registered luggage when it is weighed. Passengers are strongly recommended to attach identity tags to all personal articles which they may carry as unregistered items, for the safe custody of which they are personally responsible.

### What the fare includes.

- (i) Transport is provided for passengers free of charge between the aerodrome and Hotel, Rest House or office of Sudan Airways, which ever is the nearer, and vice versa.
- (ii) Meals and refreshments. Cool drinks or coffee are provided in the aircraft on all flights. These and any other light refreshments or meals provided in flight and all meals provided for transit passengers on the ground at scheduled stops are included in the fare. Meals taken by passengers joining or leaving the service at a transit stop are at their own expense.
- (iii) Hotel and Rest House accommodation is paid for by Sudan Airways for transit passengers in the event of a nightstop en route. Accommodation reserved as a courtesy by Sudan Airways for a passenger before a journey starts or on arrival at destination or at a junction station where a change is made from one route to another is at the passenger's expense.

### The aircraft.

On all flights the aircraft is the de Havilland "Dove". Smoking is permitted. A lavatory compartment is fitted. Noticeable features of the aircraft are the unusually large windows, the comfort of the seats, and the smoothness and the quietness of the motors.
